

STUDY OBJECTIVES

The Northeast Florida Freight Movement Study is being conducted by the Florida Department of Transportation District Two with the overall goal of enhancing and expanding freight mobility for the 18-county Northeast Florida region. The study's objectives include:

- Develop a regional branding for freight and related services;
- Leverage public-private-partnership opportunities;
- Create a living document that is a useful tool for public and private sector stakeholders;
- Design the document to be upward looking to align with Federal and State policies while being tailored to meet local and regional freight needs ;
- Create a defensible list of priority projects; and
- Position District Two for future funding opportunities.

METHODOLOGY

**PARTNER AND
STAKEHOLDER ENGAGEMENT**

ANALYZE COMMODITY FLOWS

**REVIEW OF EXISTING PLANS
AND POLICIES**

IDENTIFY FREIGHT SYSTEM NEEDS

**IDENTIFY EXISTING FREIGHT
SYSTEM CONDITIONS**
